

Presents

LUMPS, BUMPS, SPOTS AND DOTS FOR THE DENTAL HYGIENIST

April 26, 2018

White Water Center

Dinner: 5:30 PM

CE Discussion: 6:00-8:00 PM

We appreciate the dental hygienist and everything you do for our dental community. Please join us for this **FREE** CE event to dive into some common pathology lesions and find out if they should be watched or referred.

Our OMA surgeons will show you some of the lesions they see daily and how we treat them. Our special guest oral pathologist, Dr. Glen Houston, will also help us understand them better.
